

57th IALB and 7th EUFRAS Conference SEASN and ESEE Meeting on 17-21 June 2018 in Mosonmagyaróvár

Poster section on Wednesday, 20th June

Technical standards to be considered for your participation in the poster section.

Allocation:

This year's posters will be subdivided into one of the following categories:

1. Agricultural extension
2. Farm management
3. Training tools for advisors

Please indicate for which one of the above-mentioned poster categories you would like to apply by putting the relevant number in the upper right corner of your poster.

Size and layout:

All posters must be created in upright format.

A 1-page print in A0 format (84.1 cm x 118.9 cm) is the only acceptable poster size.

You may choose between black and white or colour print.

Posters should be easy to read (type size, headlines, sections etc.) and should not be overloaded with information. Please structure your layout (e.g. title, author, introduction, contents, experiences, results etc.). Also remember to add your contact details and your personal picture.

Presentation

During performance of the poster section a contact person shall be available for each poster. He or she should be able to give detailed information. It is not permitted to use any other means of presentation (booklets, flyers, sticks, banners, audio/video material, etc.). Posters and details presented by the relevant author of the project will be the only factors considered for evaluation.

Submit your suggestions:

Please send your ideas as pdf files in consideration of the above-mentioned standards to the following e-mail address: info@ialb-eufras-2018.org

The closing date will be 25th May 2018.

Further procedures:

We will print your ideas on high-gloss paper and place them on a movable wall. All presenters will be responsible for giving additional information. (There will be no further equipment, such as tables, laptops, beamers...)

Award ceremony:

The scientific board will select the most innovative and promising posters under each category. The award ceremony will take place during the closing event.

We wish you good luck and a successful project!
