

6 RURAL NICHE PRODUCTS, SERVICES

LAPOS CSOKOLÁDÉ LTD. CHOCOLATE MANUFACTORY – “TELL IT DELICIOUSLY...”

They offer handmade chocolates from Albertkáz mérfesztta. This small chocolate manufactory was founded as a family business not far from the Austrian border in 2011. The ever-renewing wonderful chocolates are made from premium-quality raw materials from the beginning. No additives, flavourings or flavour enhancers are used for the products, in this way the taste of dried fruits and oilseeds can be enjoyed in their naturalness. Organic cane sugar and whole milk powder are used for making their own chocolates. The ever expanding range includes chocolate bars, award-winning bonbons, pralines, dragees, chocolate lollipops and chocolate figurines.

You can design and decorate your own chocolate bar.

GYŐRI „ELŐRE” FISHERY PRODUCERS' CO-OPERATIVE (KISBAJCS) - „FRESH FISH FROM FRESH WATER”

The company was founded in 1945 for natural fishing and fish farming. Then the manufacturing of processed fish products was started among the first. Also renewable (green) energy is used in the production at the site in Kisbajcs, in modern environment. Some typical products are the following: fish soup, smoked fish fillets, fish salad, fish pastes, and Hungarian black caviar sold under the name Caviar Danubius. A nationally unique sturgeon breeding and rearing program is implemented in the co-operative fish farm.

BENEDICTINE ABBEY OF PANNONHALMA - "LIVING IN THE PRESENT A THOUSAND YEARS"

The abbey was founded in 996 and it is still functioning. It is one of Hungary's most outstanding historical monuments, and it is also an important ecclesiastical centre having art historical significance.

Today there are about 40 monks living in the monastery in the spirit of "ora et labora". They perform the liturgy, receive the enthusiasts, operate the residential high school, and do cultural work – by conducting libraries,

archives, museums, publishing office, and organizing concerts. The monastery is associated with many productive activities as it operates winery, herb garden, arboretum, mineral water bottling and renewable energy sources. Also many processed products are marketed, like herbal teas, biscuits, chocolates, wine vinegar, liqueurs, soaps and essential oils. Their best-known product is lavender, which is grown on their own 5.5-hectare plantation and processed lavender oil in their plant.

PÉCSINGER VINEYARDS (GYŐRÚJBARÁT) - „FROM UNIQUE TO UNFORGETTABLE"

Unique: Ecological vine growing takes place on 50 hectares; that approach is most evident in plant protection. For this reason, the following are used: orange oil, algae extract, foliar fertilizers and sodium silicate. Unforgettable: the high quality products of ecological farming, like grape juice, apple juice and, of course, wine. The dominant varieties are Riesling and Merlot.

The grape juice processing plant is unique and unforgettable at the same time, with its fully-formed architectural solutions.
